# ROOM SELECTION

## IMPORTANT INFORMATION

Self-Assignment is an online process where students are able to select their own spaces depending on availability and eligibility for the upcoming academic year. Room selection is for the full academic year (both the fall and spring semesters).

### Room Renewal

Room Renewal is the time period when current housing students may elect to stay in the same bedspace assignment for the upcoming academic year.

### Building Renewal

Building Renewal is the time period when current housing students may elect to stay in the same building assignment, but who are looking to change rooms for the upcoming academic year.

### General Room Selection

General Room Selection (GRS) is the time period when current housing students are able to select a new room, building, or bedspace assignment for the upcoming academic year pending availability and eligibility.

*\*Room assignments may be limited by gender and age.*

*Please note that you may not be able to complete Self-Assignment if you have an outstanding balance, are on academic probation, or are not registered for classes for the upcoming semester.*

Contact your student advisor for more information on registration.

### The Waitlist

Students that do not participate in Room/Building Renewal or General Room Selection lose their priority in the housing selection process. Continuing students must submit an application and have \$500 in their housing deposit to be placed on the housing waitlist and assigned to spaces if they become available. Housing is not guaranteed for these students, and students who do not receive an assignment will receive a refund of their housing deposit.

**It is highly recommended that housing waitlist students seek alternative housing accommodations should on-campus housing be unavailable.**
